

It has come to our notice that unscrupulous agencies are alluring job aspirants with fake employment opportunities with Solar Energy Corporation of India Ltd. and obtaining money as security deposit, exam fees etc.

We would like everyone to be informed and aware that SECI is a government company which never authorizes any agency to recruit directly by teleconference, emails etc. The recruitments are made through due government process for open competition and all the recruitment notification are advertised in print media in national/ local newspaper including employment news and are also uploaded on our website (www.seci.co.in) for public viewing. Therefore, it is advised to be aware of these types of unscrupulous recruitment agencies and such fraudulent activities.
