GROUP NOW HAS NEARLY 300 AIRCRAFT

Air India plans to induct 100 planes in 2 years: Wilson

PRESS TRUST OF INDIA
New Delhi, August 13

AIR INDIA IS facing challenges due to external volatility but remains focused on the profitability path and plans to induct over 100 new planes over the next two years, its CEO Campbell Wilson said on Thursday.

The loss-making airline has been facing multiple headwinds, and a leadership transition is happening, with former Ethiopian Airlines Group chief Tewolde Gebremariam set to take over as the CEO and MD from Wilson.

During a townhall with staff, Wilson, who is likely to leave the airline next month, said the annual salary increments will come into effect from October 1.

The recently revised pay structure for pilots will also be effective on the same date, according to sources. Earlier this year, the increment cycle was deferred by one quarter amid the West Asia turmoil significantly impacting flight operations and costs.

Talking about the future trajectory, Wilson said the group expects to induct over 100 new planes in the next two years and that 16 Boeing 787-8 aircraft are to be retrofitted in 2027, according to the sources.

He told the employees that the airline continues to make steady progress on its transformation journey despite a challenging operating environment marked by geopolitical uncertainty, airspace disruptions, fuel price volatility and macroeconomic pressures.

Currently, Air India Group, comprising Air India and Air India Express, has nearly 300 planes. Air India has more than 185 aircraft, including the wide-body fleet of 35 Boeing 787s, 19 Boeing 777-300 ERs and 6 A350-900s. Out of these wide-bodies, 26 Boeing 787-8s are legacy ones, and 3 are brand new and were inducted this year. In 2026, the airline is to induct 2 new Airbus A350-1000 aircraft.

Over the past six months, Wilson said airlines worldwide have faced significant headwinds, including a surge in jet fuel prices during the March-May period, and the Pakistan airspace closure increased flight times for Indian airlines by up to three hours on various Europe and North America routes.

Disruptions arising from the Iran conflict have further increased operational complexity and fuel costs.

FLYING HIGH

- Outgoing CEO **Campbell Wilson** during a townhall said the carrier remains focused on the profitability path
- He said the annual salary increments will come into effect from October 1
- Air India has 35 Boeing 787s, 19 Boeing 777-300 ERs & 6 A350-900s
- The airline has been facing multiple headwinds, and a leadership transition is taking place
- **Former Ethiopian Airlines Group chief Tewolde Gebremariam set to take over as the CEO and MD from Wilson**

Airline to test pilots for drugs

AIR INDIA AND Air India Express will begin mandatory psychoactive substance testing of all their pilots on Thursday, expanding checks beyond regulatory requirements, following the captain of a Phuket-Delhi flight that suddenly lost altitude tested positive for marijuana, according to sources.

The two Tata Group-owned airlines together have more than 5,000 pilots. The comprehensive screening will cover substances and medications prohibited under prevailing aviation regulations, the airlines said in an internal communication to pilots.

Tests will be conducted alongside training sessions at Air India's Gurugram academy, after flights at briefing centres and airline offices, or at locations designated by pilots' home bases, the memo said.

Existing regulations require airlines to randomly test at least 10% of their flight crew for psychoactive substances each year. **PTI**

Tata Motors PV profit plunges 80%

AKBAR MERCHANT
Mumbai, August 13

TATA MOTORS PASSENGER Vehicles reported an 80% year-on-year decline in consolidated net profit for the June quarter, weighed down by weaker performance at Jaguar Land Rover (JLR), higher commodity costs and adverse foreign exchange movements.

Consolidated profit after tax fell to ₹775 crore in Q1 FY27 from ₹3,924 crore a year ago, and was also sharply lower than ₹5,783 crore in the March quarter. The reported profit was 53% below the Bloomberg estimate of ₹1,665 crore.

Revenue from operations rose 9.3% year-on-year to ₹95,799 crore from ₹87,141 crore, but declined 10% sequentially from ₹1,04,923 crore. Ebitda increased 20% year-on-year to ₹6,176 crore, compared with the Bloomberg estimate of ₹6,373 crore. However, the consolidated Ebitda margin contracted to 7.4%, reflecting pressure from higher input costs, adverse foreign exchange movements and weaker JLR performance. The domestic passenger vehicle business delivered strong growth during the quarter, with volumes rising 46% year-on-year, significantly outpacing the industry. Revenue jumped 64.8% to ₹17,930 crore.

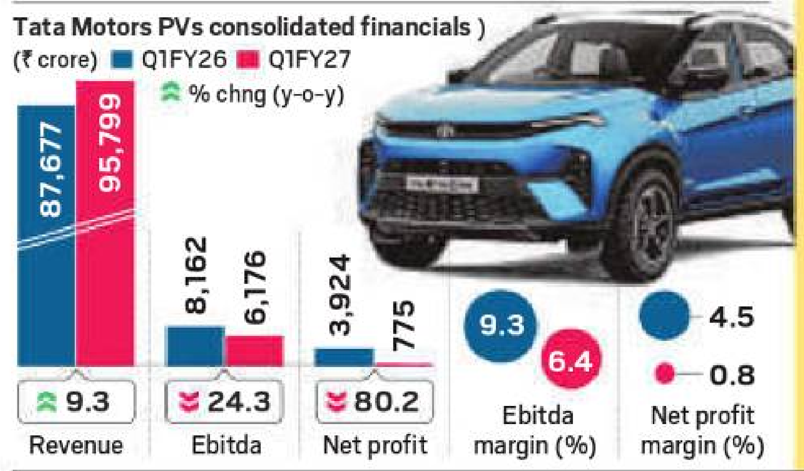
Electric vehicle volumes surged 112% to more than 34,000 units, taking EV penetration in the domestic portfolio to 19%. CNG models accounted for 27% of the portfolio. Growth was supported by the company's expanding EV range, new launches and improving demand following the easing of disruptions linked to the West Asia conflict.

"Q1 FY27 marked a strong start to the year for Tata Motors PV, with industry-beating 46% y-o-y volume growth driven by robust customer demand and the success of our recent launches," said Shailesh Chandra, managing director and CEO, Tata Motors Passenger Vehicles.

Tata Motors PV expects commodity cost pressures to intensify in Q2, potentially prompting further calibrated price hikes. Commodity inflation impacted Q1 domestic margins by nearly 4.5% of revenue. Battery cell costs also rose 10% sequentially, putting additional pressure on EV margins as the company accelerates cost-reduction measures.

JLR, which contributes around two-thirds of Tata Motors' overall revenue, reported a 9.2% decline in wholesale volumes during the quarter.

SPEED BUMP



SHAILESH CHANDRA, MD & CEO, TATA MOTORS PASSENGER VEHICLES

"Q1 FY27 marked a strong start to the year for Tata Motors PV, with industry-beating 46% YoY volume growth"

Passenger vehicle July dispatches grow 34.3%

DOMESTIC PASSENGER VEHICLE dispatches from companies to dealers rose 34.3% year-on-year to 457,810 units in July as the auto industry recorded its strongest-ever July sales, industry body SIAM said on Thursday.

Passenger vehicle dispatches were at 3,40,772 units in July 2025, Society of Indian Automobile Manufacturers (SIAM) said in a statement.

Total two-wheeler sales rose 22.6% to 1,923,483 units last month as against 1,569,120 units in July last year, it added.

Three-wheeler dispatches to dealers were up 33.4% last month at 92,560 units, as against 69,403 units in the year-ago period, it added. **PTI**

LG Electronics profit grows 27%, revenue rises 15%

VIVEAT SUSAN PINTO
Mumbai, August 13

LG ELECTRONICS INDIA on Thursday reported a 27.2% year-on-year increase in net profit to ₹653 crore for the quarter ended June 30 (Q1FY27), compared with ₹513 crore in the corresponding period last year.

Revenue rose 15.5% year-on-year to ₹7,233 crore in the June quarter from ₹6,263 crore a year earlier. Earnings before interest, tax, depreciation and amortisation (Ebitda) increased 26.2% year-on-year to ₹904 crore from ₹716 crore in Q1FY26. Ebitda margin expanded to 12.5% from 11.4% a year earlier.

REPORT CARD

LG Electronics India announced its first-quarter earnings for FY27 after market hours. Shares closed flat at ₹1,578.30 apiece on Thursday, while the benchmark Nifty 50 declined 0.16%.

The company is also witnessing strong momentum in air-conditioners, with robust demand lending a more positive outlook for the year, Sanjay Chitkara, director and co-chief sales and marketing officer at LG Electronics India, said. Chitkara added that channel inventory had normalised, while retail partners were gearing up for the festive season in the second half of the year.

LG Electronics India crossed 1 million air-conditioner sales in the first quarter of calendar year 2026 and is targeting sales of more than 2 million units for the full year, he added.

Qatar Holding moves HC against Raveendran

FE BUREAU
Bengaluru, August 13

QATAR HOLDING HAS filed a fresh enforcement plea before the Karnataka High Court seeking to protect the assets of Byju Raveendran and recover dues arising from arbitration proceedings involving the founder of edtech firm Byju's.

The latest plea seeks enforcement of a final award issued in Singapore in July 2026 and asks the court to restrain dealings in certain assets until the liabilities claimed by Qatar Holding are discharged. The creditor is seeking SGD 7.2 million, or more than ₹53 crore, from Raveendran and Byju's towards amounts arising from the latest award, including arbitration costs.

The larger liability at the centre of the asset-protection proceedings is $235.19 million, arising from an earlier arbitration award issued in 2025. Qatar Holding has sought protection of assets worth $235.19 million while pursuing enforcement of the awards.

A key part of the fresh plea concerns 17.89 million shares of Aakash Educational Services held by Beeaar Investco. Qatar Holding has sought a restraint on dealings in these shares as part of its efforts to secure the amounts due.

The plea states that Beeaar Investco is wholly owned by Raveendran and that the Aakash shares were "beneficially owned" by him.
