

Solar Energy Corporation of India (SECI) Press Release

SECI unveils new look of its Corporate Website

Website aligned with Government of India digital standards to enhance access for national and international stakeholders

New Delhi, 27 May 2025: The Solar Energy Corporation of India Limited (SECI), a Government of India enterprise under the administrative control of the Ministry of New and Renewable Energy (MNRE), has **launched** its newly redesigned corporate website: www.seci.co.in.

The new interface has been developed in line with the Guidelines for Indian Government Websites (GIGW 3.0) and Standardisation Testing and Quality Certification (STQC) requirements. It supports improved navigation and structured access to SECI's operational, financial, and regulatory content.

The website serves renewable energy developers, power distribution companies, public sector institutions, internal stakeholders, and international agencies engaged in India's clean energy transition. It features dedicated access to tenders, project commissioning updates, policy references, investor information, and institutional reports.

The launch was officiated by Shri Santosh Kumar Sarangi, IAS, Secretary, Ministry of New and Renewable Energy, and Chairman & Managing Director (Additional Charge), SECI, in the presence of Shri Sanjay Sharma, Director (Solar), Shri Joshit Ranjan Sikidar, Director (Finance), Shri Sivakumar V Vepakomma, Director (Power System), and other senior officials.

Speaking at the launch, Shri Sarangi said: “SECI’s updated digital interface has been developed with the objective of ensuring timely access to verified information by all stakeholders, both within the country and internationally. The platform reflects SECI’s institutional and informative approach, focused on transparency, procedural clarity, and facilitation for those engaged in India’s renewable energy programmes.”

Key Features of the New Website:

- **User-Centric Design:** Responsive Interface adapted for access across desktop, tablet, and mobile devices
- **Latest Updates:** Timely access to tenders, project data, and official notifications Stakeholder
- **Resources:** Public access to reports, guidelines, FAQs, and disclosures
- **Government-Aligned Compliance:** Fully aligned with Government of India guidelines on accessibility, security, and functionality

This digital upgrade is part of SECI’s broader mandate to implement renewable energy initiatives and contribute to the objectives set under the National Renewable Energy Targets and programmes.
