3 *Scope of Work*

- 3.1 Under this RfS, the Wind Power Developer shall be required to set up ISTS-connected Wind Power Projects, including the transmission network up to the Interconnection/Delivery Point with the primary objective of supplying wind power to SECI, at its own cost and as per the provisions of the RfS and PPA.
- 3.2 Identification of land, installation and ownership of the Project, along with obtaining connectivity and necessary approvals and interconnection with the ISTS network/STU or InSTS network (as applicable) for supply of power to SECI, will be under the scope of the WPD. For the purpose of STU interconnection, WPD may install the Project in the same State where the Buying Entity is located.
- 3.3 The Projects to be selected under this scheme provide for deployment of Wind Power Technology. However, the selection of Projects would be technology agnostic.

4 *Total capacity offered*

- 4.1 Selection of Wind Power Projects for a total capacity of 600 MW will be carried out through e-bidding followed by e-Reverse Auction (e-RA) process.
- 4.2 Further, SECI may allocate and tie-up additional capacity up to 300 MW under 'Greenshoe Option' in accordance with Clause 45 of the RfS.

The Contracted Capacity may be quoted in decimal values, up to two decimal places. In case the quoted bid capacity contains more than 2 decimal places, the bid capacity will be considered up to two decimal places and the digits after two decimal places will be removed.

For e.g., if a bidder quotes the bid capacity of 180.548 MW, then the bid capacity that will be considered for the purpose of bid evaluation will be 180.54 MW.

Note: In case a common Company/Companies directly or indirectly hold(s) more than 10% but less than 26% shareholding in more than one Bidder participating in the RfS, each of such Bidders will be required to submit the Disclosure as per Format 7.8A. In all other cases, Format 7.8 will be applicable.

Subsequent to deadline to apply for connectivity, any change in Delivery Point shall be allowed by SECI only in case the scheduled commissioning date of the ISTS-substation of the proposed revised Delivery Point is on or before the scheduled commissioning date of the existing Delivery Point of the Project, at the time of seeking approval from SECI by the WPD.

In this case, the WPD will be required to apply for connectivity at the proposed substation within 7 working days of intimation of approval for the same by SECI.

In case the WPD fails to obtain connectivity on account of reasons attributable to it, including but not limited to failure to apply for connectivity within the above deadline, the WPD will not be eligible for corresponding extension in the timelines for meeting the Project milestones.

7 Connectivity with the Grid

- 7.1 The Project should be designed for interconnection with the ISTS/InSTS in accordance with the prevailing CERC/SERC regulations in this regard. In case the Buying Entity is located in the same State where the Project is located, the WPD may choose to interconnect the Project at the STU/InSTS substation at a minimum voltage level as per the applicable State regulations. The relevant provisions of the RfS, PPA and PSA documents referring to ISTS Substations as the Delivery Point shall also mean STU/InSTS substations, wherever applicable. Similarly, reference to CEA regulations with respect to connectivity and synchronization with the grid will also mean reference to the applicable SERC/State Government regulations for InSTS-connected Projects. For interconnection with the grid and metering, the WPD shall abide by the applicable Grid Code, Grid Connectivity Standards, Regulations on Communication System for transmission of electricity and other regulations/procedures (as amended from time to time) issued by Appropriate Commissions and Central Electricity Authority (CEA).

Minimum voltage level for interconnection at the ISTS shall be 220 kV.

- 7.2 The responsibility of getting the ISTS connectivity shall entirely be of the WPD and shall be at the cost of the WPD, in line with applicable regulations. In case of the Project being set up in a RE Park, applicable connectivity regulations shall govern the scope of the WPD. With such availability of transmission system being dynamic in nature, the Bidder has to ensure actual availability of power injection/evacuation capacity at an ISTS substation. The transmission of power up to the point of interconnection where metering is done for energy accounting, shall be the responsibility of the WPD at its own cost. In case a WPD is required to use InSTS to bring wind power at ISTS point, it may do so as per rule and regulations prescribed by the respective SERC in this regard. The maintenance of transmission system up to the Interconnection Point shall be responsibility of the WPD, to be undertaken entirely at its cost and expense.
- 7.3 The arrangement of connectivity can be made by the WPD through a transmission line up to the Interconnection Point. The entire cost of transmission including cost of construction of line, wheeling charges, SLDC/ Scheduling charges, SOC, MOC, maintenance, losses etc. and any other charges from the Project up to and including at the Interconnection Point will be borne by the WPD.
- 7.4 The WPD shall be required to follow the Detailed Procedure as issued by CERC/CTU under the General Network Access under the Central Electricity Regulatory Commission (Connectivity and General Network Access to the Inter-State Transmission System) Regulations, 2022. The WTGs and Wind Project shall comply with all the technical requirements specified under Central Electricity Authority (Technical Standards for Connectivity to the Grid) Regulations, 2007, including subsequent amendment and clarifications issued thereto, as well as other Rules/Regulations issued by CERC/CEA and as amended from time to time. It is further clarified that the Entities (WPD and Buying Entity) as indicated in the procedure issued under the above Rules/Regulations, will be responsible for their respective obligation as notified in the procedure, irrespective of the provisions of the RfS, PPA and PSA. The Projects shall also comply with the Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, including subsequent amendments and clarifications issued thereto.
- 7.5 The Bidders are free to choose the ISTS substations for interconnection of the Project to the Grid on a pan-India basis. While doing so, the Bidders shall apply due diligence while choosing the proposed substation, and may choose their substations from any one of the following options:
- i. Existing substations having available margin as indicated by the respective substation owner.
 - ii. Existing substations/ substations under construction where augmentation is under process or plans for augmentation have been announced.
 - iii. Substations approved under the updated plan made available by the CTU on its website, <https://www.ctuil.in/renewable-energy>, subject to availability of requisite margin for grant of connectivity.

- iv. Substations identified for RE capacity under para 3, 4, 5, and 9 of ‘Transmission System for Integration of over 500 GW RE Capacity by 2030’ published by CEA on its website, [https://cea.nic.in/wp-content/uploads/psp_a_i/2022/12/CEA Tx Plan for 500GW Non fossil capacity by 2030.pdf](https://cea.nic.in/wp-content/uploads/psp_a_i/2022/12/CEA_Tx_Plan_for_500GW_Non_fossil_capacity_by_2030.pdf), including subsequent revision therein from time-to-time.

Bids indicating substations outside the above four choices will be liable for rejection. It is, however, clarified that selection of Delivery Point by the Bidder at the time of bid submission will not be evaluated with respect to the SCSD of the Project as per the PPA.

- 7.6 Metering arrangement of each Project shall have to be adhered to in line with relevant clause of the PPA. Two or more Projects can be connected to a common pooling substation from which the pooled power can be transferred to the ISTS substation through a common transmission line subject to the following conditions:

- i. Acceptance of such an arrangement by CTU/ RLDC.
- ii. Energy injected by each Project will be recorded and jointly signed by respective WPDs and copies of the same will be submitted to SECI/CTU as required.
- iii. The energy accounts are divided and clearly demarcated for the power supplied by the Project and are issued by the STU/SLDC/RLDC/RPC concerned.
- iv. In case of Pooling substation, losses in the transmission line between the Pooling substation and the ISTS substation, shall be apportioned among the WPDs who share such a Pooling arrangement, based on their monthly generation.

- 7.7 The WPD shall comply with CERC/SERC regulations on Forecasting, Scheduling and Deviation Settlement, as applicable and are responsible for all liabilities related to Connectivity. The scheduling of power from the Project as per the applicable regulation shall be the responsibility of the WPD and any financial implication on account thereof shall be borne by the WPD. In order to remove potential discrepancies and ambiguities, the WPDs are hereby instructed that, as part of scheduling of power from the Project, they will be required to punch-in their respective schedules and subsequent revisions, by themselves, at the interfaces of all the RLDCs concerned for the corridor of power flow, including the RLDC of the Buying Entity/Discom, as per the Regulations in force, under intimation to SECI. SECI may facilitate in identification of any discrepancy and assist the WPD for its early rectification without any liability on SECI. The WPD shall be solely responsible for discrepancy identification and its rectification to avoid any rejection/less payment of invoices.

- 7.8 Reactive power charges and charges against power drawn from grid as per CERC/SERC regulations, shall be payable by WPD as per provisions of PPA. Metering arrangement for the Project shall have to be adhered to in line with relevant provisions of the PPA.

- 7.9 Pursuant to Clause 7.6 above, the Buying Entity will be responsible for obtaining General Network Access (GNA), and shall bear all transmission charges and losses and any other charges as applicable under the respective regulations beyond Delivery Point and up to the drawl point.

- 7.10 The WPDs will be required to apply for connectivity at the identified substation, as

mentioned in the Covering Letter (Format 7.1), within 30 days from the Effective Date of PPA, and shall furnish copies of the application, complete in all respect, to SECI within 15 days of date of filing of application. WPD shall also have to provide the copy of in-principle grant of connectivity, final grant of connectivity, connectivity agreement within 15 days of issuance of letter by CTU / signing of connectivity agreement, as the case may be, to SECI.

- 7.11 The WPD has to follow the timelines mentioned in the GNA regulation with respect to Connectivity. In case the connectivity gets revoked due to non-compliance of WPD, in such case the capacity may not be off-taken and WPD will keep SECI/Buying Entity indemnified from any losses; further, the WPD shall be liable for any penalty for non-performance as specified in the RfS/PPA.

After fulfilling the compliances, in case the WPD fails to obtain the full/part connectivity at a Substation identified by the Bidder, the same shall be immediately notified by the WPD to SECI. In such case the WPD will be allowed for another 30 days to apply for connectivity from the date of rejection by the CTU.

8 Energy Supply by the Wind Power Developer

8.1 Criteria for Energy Supply

The Bidders will declare the annual CUF of the Projects at the time of submission of response to RfS in the Covering Letter as per Format 7.1, and the Successful Bidder will be allowed to revise the same at the time of signing of PPA, subject to the revised CUF being not less than 10% and not greater than 10% of the annual CUF quoted at the time of bid submission.

Further, the WPDs will be allowed to revise this annual CUF once within first three years after the commencement of power supply from full Project Capacity. The revised CUF shall be greater than the CUF at the time of signing of PPA. Thereafter, the CUF for the Project shall remain unchanged for the entire term of the PPA. The declared/revised annual CUF shall in no case be less than 22%. The WPD shall maintain energy supply so as to achieve annual CUF not less than 80% of the declared/revised value and not more than 120% of the declared/revised CUF value, during the PPA duration of 25 years. The lower limit will, however, be relaxable by SECI to the extent of non-supply on account of Force Majeure identified under the PPA with SECI, affecting supply of power by the WPD.

For the first year of operation of the Project, the annual CUF shall be calculated for the complete year after commencement of power supply from the Project. Subsequently, the annual CUF will be calculated every year from 1st April of the year to 31st March next year. Similarly, for the last year of operation of the Project, the annual CUF shall be calculated for the complete calendar year before the expiry of the PPA.

The WPDs are free to install additional wind turbines in the Projects, subject to the following conditions:

- a. Details of the overall Project configuration, including details of additional capacity that WPD is proposing to install in the Project, must be provided within 30 days of

issuance of LoA.

- b. Excess generation on account of the above additional installed capacity shall be treated in line with provisions of Article 4.4.2 of the PPA.
- c. The WPD will undertake that such installed capacity over & above the contracted capacity would not cause any disturbance in the grid system, at no instance, power more than the contracted capacity under the PPA would be injected into the grid, and they will always comply with the terms of the PPA in this regard. This undertaking will be submitted to SECI/CTU, to be intimated by SECI at the time of commencement of power supply from the project.
- d. With Connectivity to the ISTS being a technical requirement, the WPD should inform the entire capacity that is proposed to be installed along with all the data/models (individual as well as aggregated) to CTU/GRID-INDIA.
- e. All the Wind Turbine Generators (WTGs) shall comply with all the technical requirements specified in CEA “Technical Standards for Connectivity to the Grid, 2007” and subsequent amendments.
- f. At all-times, the WPD shall have to follow the applicable Indian Electricity Grid Code/Rules/Regulation/Procedures issued by MoP/CEA/CERC/CTU/GRID-INDIA for all WTGs, including additional WTGs, installed under the Project.
- g. As specified in CERC approved “Procedure for Implementation of the Framework on Forecasting, Scheduling and Imbalance Handling for Renewable Energy (RE) Generating Stations including Power Parks based on Wind and Solar at Inter-State Level”, each single WTG level data shall be provided by WPD to CTU/GRID-INDIA, for all the turbines installed in the Project.
- h. WPD would be permitted Connectivity as per the applications to CTU. 8.2 **Shortfall in Energy Supply**

If for any Contract Year, it is found that the WPD has not been able to supply minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the WPD, on account of reasons primarily attributable to the WPD, such shortfall shall be dealt as per the applicable provisions of the PPA.

9 ***Commencement of Power Supply***

In this case, if it is found that the infirm power is being scheduled to any third party/ power exchange without obtaining NOC from SECI, the WPD will be liable to pay compensation to SECI for the amount corresponding to the Applicable Tariff as per PPA, only if the tariff is higher than the Applicable Tariff as per PPA. Such compensation will be passed on to the Buying Entity after deducting SECI's trading margin.

It is clarified that SECI shall bear no responsibility in declaration of commissioning/COD of the Project. However, on the basis of above documents, the WPD shall be required to obtain No-objection certificate (NOC)/ PPA Compliance Certificate from SECI prior to declaration of commissioning/COD of the Project.

SECI's scope will be limited to verifying the installation of rated capacity(ies) of the Project as per the COD certificate submitted by the WPD. This verification will be at SECI's discretion and shall not constitute any certification/confirmation of commissioning/COD of the Project by SECI. Prior to declaration of commencement of power supply, the WPD shall submit COD certificate for the corresponding Installed Capacity to SECI as part of the requisite documents.

The date of onset of commercial off-take of power by SECI/Buying Entity shall be determined as the date of commencement of power supply under the RfS/PPA.

The WPD shall be required to obtain NOC from SECI prior to sale of infirm power to any third party prior to declaration of COD. However, in case the Buying Entity is ready to offtake that infirm power as per regulations prior to declaration of COD then such infirm power shall be scheduled to the Buying Entity in line with Central Electricity Regulatory Commission (Indian Electricity Grid Code) Regulations, 2023. In case the infirm power is off-taken by Buying Entity, then such power shall be purchased at the Applicable Tariff (as per Article 9.1 of PPA). In case Buying Entity does not consent to purchase such infirm power, the right of refusal shall then vest with SECI.

Part Commencement of supply of power from the Project shall be accepted by SECI subject to the condition that the minimum capacity for acceptance of first part shall be 50% of Project Capacity or 50 MW, whichever is lower, without prejudice to the imposition of penalty, in terms of the PPA on the part which has not yet commenced supply of power. However, in case of an ISTS-connected Project, first part for acceptance of commencement of supply of power shall be at least 50 MW. The projects can further commence supply of power in parts of at least 10 MW capacity; with last part as the balance capacity.

However, the SCSD will not get altered due to part commencement of supply of power. Irrespective of dates of part or full commencement of supply of power, the PPA will remain in force for the period specified in the PPA.

9.2 **Commencement of Supply schedule and Penalty for Delay in Commencement of Power Supply**

- a. The Scheduled Commencement of Supply Date (SCSD) for supplying power from the full Project Capacity shall be the date as on **24 months** from the Effective Date of the PPA (for e.g. if Effective Date of the PPA is 07.06.2026, then SCSD shall be 07.06.2028).

- d. In case of delay in commencement of power supply beyond the date as per Clause 9.2.b above, the Contracted Capacity shall stand reduced to the Project capacity that has commenced supply of power until the date as per Clause 9.2.b. above, and PPA for the balance Contracted Capacity will stand terminated. Also, the PBG corresponding to the capacity which has not started commencement of power supply until the date as per Clause 9.2.b above, shall be encashed on pro-rata basis.

10 Delay in Commencement of power supply on Account of Delay in readiness of ISTS evacuation infrastructure/Start Date of Connectivity

The responsibility of obtaining General Network Access (GNA) shall be of the Buying Entity prior to commencement of supply of power from the Project. For sale of power to SECI from SCSD, the GNA is required to be obtained by the Buying Entity. Subsequent to grant of connectivity, in case there is a delay in Start Date of Connectivity by the CTU and/or there is a delay in readiness of the ISTS substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS network until SCSD of the Project, or delay in Start Date of Connectivity, and it is established that:

- i. The WPD has complied with the complete application formalities as per Clause 7.10 above and as per the Detailed Procedure as issued by the CTU,
- ii. The WPD has adhered to the applicable regulations/procedures in this regard as notified by the CERC/CEA, and

The delay in Start Date of connectivity/GNA by the CTU and/or delay in readiness of the ISTS substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS network, is a factor attributable to the CTU/transmission licensee and is beyond the control of the WPD;

The above shall be treated as delays beyond the control of the WPD and SCSD for such Projects shall be revised as the date as on 60 days subsequent to the readiness of the Delivery Point and power evacuation infrastructure and Start Date of Connectivity of the Project. Decision on requisite extension on account of the above factor shall be taken by SECI.

In case of delay in commencement of power supply from the Project due to reasons beyond the reasonable control of the WPD, SECI may extend the SCSD after examining the issue on a case-to-case basis.

Further, in case of delay in commencement of power supply from the Project on account of reasons solely attributable to the WPD, resulting in any liquidated damages/penalty levied on the Buying Entity including Transmission charges under the GNA Regulations and/or applicable regulation as notified by CERC, such damages/penalty shall be passed on to the WPD.

11 Early Commencement of Supply of Power

The WPD shall be permitted for commencement of supply of power from full as well as part capacity of the Project even prior to the SCSD, subject to availability of transmission connectivity and General Network Access (GNA). Early commencement of power supply from the Project will be allowed solely at the risk and cost of the WPD. In cases of early part or full commencement of supply of power, the WPD shall give fifteen (15) days advance notice to both Buying Entity and SECI regarding the advance commissioning of full or part capacity. Buying Entity and SECI shall give acceptance for availing such power within 15 days from the date of service of such notice. In case, both the Buying Entity and SECI do not give their acceptance to purchase power within the above stipulated period, the WPD can sell the power to the extent not accepted by the Buying Entity and SECI in the power exchanges or through bilateral arrangements until SCSD or the date of commencement of procurement of power from the Project as notified by SECI, whichever is earlier.

Provided that in case both the Buying Entity and SECI give their acceptance to purchase of power, the Buying Entity will be accorded priority in availing such power. In case the designated Buying Entity does not give its acceptance, then SECI can offtake such power directly or designate another potential buyer/entity to offtake such power at the Applicable Tariff as per PPA.

In case SECI/Buying Entity agrees to purchase power from such early part/full Contracted Capacity prior to SCSD, such power will be purchased by SECI at the PPA tariff and sold to the Buying Entity at the PSA tariff and other terms and conditions of power procurement may be in reference of the PPA & PSA on back-to-back basis.

A copy of standard PPA to be executed between SECI and the selected WPD is available on ISN-ETS Portal and on SECI's website. The PPA signing date will be intimated by SECI subsequent to issuance of Letter of Award (LoA). PPA will be executed between SECI and selected bidder or its SPV separately for each Project.

Note: PPA will be executed between SECI and the WPD as per the breakup of the cumulative Contracted Capacity awarded to the Bidder. The Bidder shall provide the project breakup for the cumulative contracted capacity quoted, in the Covering Letter (Format 7.1), and this breakup may be changed by the WPD subsequent to issuance of LoA up to the date as on 30 days from issuance of LoA. For example, if the Bidder has been issued a single LoA for a cumulative capacity of 200 MW, the Successful Bidder may choose to split the 200 MW into more than one Project (2 x 100 MW, for example), within the above deadline.

Further, at the time of bid submission, for each Project, the bidder shall provide a tentative hourly generation profile for a representative day for each month in a single year, indicating tentative energy (MWh) and power (MW) to be supplied under the PPA, as per Appendix-I and II of the Covering Letter (Format 7.1). Delay in meeting the PPA timelines on account of changes in the Project parameters from the data as submitted in the Covering Letter (Format 7.1), shall be at the risk and cost of the Successful Bidder. The PPA(s) will be signed after signing of PSA(s) for the respective Project(s).

The WPD shall submit a detailed completion Schedule for the Project prior to the signing

of PPA. Broad details to be captured in the Schedule are the land procurement, grid connectivity; order, supply and erection status of various Project components; financial arrangement/ tie up etc. The WPD shall also submit the progress report to SECI in a form acceptable to SECI and shall contain percentage completion achieved compared with the planned percentage completion for each activity, and any such other information as required by SECI.

- 21.2 The PPAs shall be valid for a period of 25 years from the SCSD. The WPDs are free to operate their projects after expiry of the 25 years of PPA period if other conditions such as land lease etc., permit. Any extension of the PPA period beyond 25 years shall be through mutual agreement between the WPD, Buying Entity and SECI, as the case may be, as approved by the Appropriate Commission, provided that the arrangements with the land and infrastructure owning agencies, the relevant transmission utilities and system operators permit operation of the Project beyond the initial period of 25 years.
- 21.3 The Performance Bank Guarantee as per Clause 18 above and Success Charges as per Clause 19 above, shall be submitted by the WPD prior to signing of PPA. Before signing of PPA between SECI and the WPDs, SECI will verify the shareholding of the Project Company along with a copy of complete documentary evidence. If at this stage, it is found that the documents furnished by the WPDs are false / misleading or misrepresented in any way, then the provisions contained in this RfS will be applicable.
- 21.4 (i) SECI will invite the Successful Bidders for signing of PPA, through written intimation. The Bidder shall be required to submit the necessary documents, including the 2nd instalment of Success Charges and the PBG as required prior to PPA signing, within 30 days of the above intimation issued by SECI. Checklist for submission of necessary documents/charges/PBG is placed at Annexure-C of the RfS.
- (ii) Notwithstanding the actual PPA signing date, the Effective Date of the PPA shall be the date as on 15 days after the date of above intimation by SECI. In case of such day falling on a holiday, the Effective Date shall be the next working day.
- (iii) In case of delay in submission of the requisite documents/2nd instalment of Success Charges /PBG and/or signing of PPA by the Successful Bidder, delay charges @Rs. 1000/MW/day + applicable GST corresponding to the unsigned PPA capacity shall be levied on the Bidder on per-day basis, until the date of submission of such documents/charges by the Successful Bidder. Such charges shall be non-refundable. The amount of Rs. 1000/MW/day + GST shall be paid by the Bidder in advance prior to the commencement of the said delay period and shall be calculated based on the period of delay as estimated by the Bidder. In case of the Bidder signing the PPA before the last date of such proposed delay period (for which delay charges have been paid), the remaining amount out of the deposited amount by the Bidder shall be returned by SECI. Interest on account of delay in deposition of the above-mentioned charges or on any subsequent extension sought, shall be levied @ one-year SBI MCLR rate /annum on pro-rata basis.
- (iv) The above penalty period shall be applicable for 30 days beyond the deadline for submission of requisite documents/PBG/Success Charges. Subsequent to lapse of this 30-day penalty period, SECI may grant further extension in PPA signing deadline,

based on its discretion and subject to payment of applicable delay charges by the bidder and submission of documentary evidences justifying the delay is beyond control of successful bidder.

(v) SECI shall not be liable for delay in verification of documents and subsequent delay in signing of PPA.

SECI's obligation to WPD under the PPA shall also be on the back to back basis as provided in the PPA and the corresponding PSA.

Power procured from the Project awarded under this RfS shall be allocated on back-to-back basis to the Buying Entities at the discretion of SECI, in consultation with Buying Entities. Various provisions provided in the SECI-WPD PPA shall mutatis mutandi apply to PSA between SECI and Buying Entity, however, PSA signed with Buying Entities could be in elaborated form or in short form as per consultation done with Buying Entities.

21.7 The WPDs will be free to repower the Projects from time to time during the PPA duration at its own risk and cost, pursuant to Clause 8.1 above. However, SECI/ Buying Entity will be obliged to buy power only up to the Contracted Capacity as per the PPA.

21.8 In addition to the above, subsequent to signing of PPA, the WPD shall be required to submit the monthly Project status on 5th day of every calendar month as per Annexure-B of the RfS or any format as provided subsequent to signing of PPA.

21.9 In case the Project is ready for part/full commencement of supply of power but the PPA has not been signed, No Objection Certificate (NOC) may be issued to WPD (if sought by WPD) for third-party sale of power from the Project until signing of PPA. The NOC so granted shall be withdrawn by SECI once the readiness of off-take of the power as per PPA is intimated by SECI with a notice period of 7 calendar days.

22 Financial Closure or Project Financing Arrangements

22.3 In case of default in achieving above condition as may be applicable within the stipulated time, SECI shall be entitled to encash PBG/POI/Surety Bond and may remove the Project from the list of the selected Projects. An extension may however be considered, on the sole request of WPD, on advance payment of extension charges of INR 100/- per day per MW (of Contracted Capacity) + applicable GST. This extension will not have an impact on the obligation of WPD to commence supply of power by the Scheduled Commencement of Supply Date of the Project. Subsequent to the completion of deadline for achieving financial closure, SECI shall issue notices to the WPDs who are not meeting the requirements of Financial Closure as per the RfS deadlines. The notice shall provide a period of 7 business days to the respective WPDs to either furnish the necessary documents or make the above-mentioned payment of INR 100/MW/day + GST. In case of non-submission of either-the requisite documents or the necessary amount upon expiry of the above-mentioned notice period of 7 days-SECI shall encash the PBG/POI/Surety Bond of the corresponding WPDs and may terminate the PPA for the corresponding Project. The amount of INR 100/MW/day + GST shall be paid by the WPDs in advance prior to the commencement of the said delay period and shall be calculated based on the period of delay as estimated by the WPD. In case of the WPD meeting the requirements of Financial Closure before the last date of such proposed delay period (for which extension charges have been paid), the remaining amount out of the deposited amount by the WPD shall be returned by SECI. Interest on account of delay in deposition of the above-mentioned charges or on any subsequent extension sought, shall be levied @ one-year SBI MCLR rate /annum on pro-rata basis. Any extension charges paid so, shall be returned to the WPD without any interest and GST amount on achievement of successful commencement of power supply within the Scheduled Commencement of Supply Date, on pro-rata basis, based on the Contracted Capacity that has commenced supply of power as on Scheduled Commencement of Supply Date.

22.4 The WPD will have to submit the required documents to SECI at least 14 days prior to the scheduled Financial Closure date. In case of delay in submission of documents mentioned above, SECI shall not be liable for delay in verification of documents and subsequent delay in Financial Closure

SECTION 5. BID EVALUATION AND SELECTION OF PROJECTS

39 *Bid Evaluation*

Bid evaluation will be carried out considering the information furnished by Bidders as per provisions of this RfS. The detailed evaluation procedure and selection of bidders are described in subsequent clauses in this Section.

40 *Techno-Commercial Evaluation of Bidders (Step 1)*

- 40.1 The first envelope (Techno-commercial Bid submitted online) of only those bidders will be opened by SECI whose required documents as mentioned at Clause 28 of the RfS are received by SECI. Bid opening (online) will be done only after the deadline for submission of Bank Guarantee.

For e.g., if the bid submission deadline is 18:00 hrs on 05.10.2025, the online bid opening will be conducted on 08.10.2025. In case of the above date being a holiday, the bids will be opened on the next working day.

- 40.2 Documents (as mentioned in the previous clause) received after the bid submission deadline specified in the Bid Information Sheet shall be rejected and returned unopened, if super-scribed properly with address, to the Bidder.
- 40.3 Subject to Clause 28 of the RfS, SECI will examine all the documents submitted by the Bidders and ascertain meeting of eligibility conditions prescribed in the RfS. During the examination of bids, SECI may seek clarifications/additional documents to the documents submitted etc. from the Bidders if required to satisfy themselves for meeting the eligibility conditions by the Bidders. Bidders shall be required to respond to any clarifications/additional documents sought by SECI within 07 (seven) days from the date of such intimation from SECI. All correspondence in this regard shall be made through email/ISN-ETS portal only. It shall be the responsibility of the Bidder to ensure that the email id of the authorized signatory of the Bidder is functional. The Bidder may provide an additional email id of the authorized signatory in the covering letter. No reminders in this case shall be sent. It shall be the sole responsibility of the Bidders to remove all the discrepancies and furnish additional documents as requested. SECI shall not be responsible for rejection of any bid on account of the above.
- 40.4 The response to RfS submitted by the Bidder shall be scrutinized to establish Techno-Commercial eligibility as per the RfS.

41 *Financial Bid Evaluation (Step 2)*

- 41.1 In this step evaluations of Techno-Commercially Qualified Bids shall be done based on the “First Round Tariff”, quoted by the Bidder in the Electronic Form of Financial Bid. After this step, the shortlisted bidders shall be invited for the Reverse Auction.
- 41.2 Second Envelope (containing First Round Tariff) of only those bidders shall be opened whose technical bids are found to be qualified as per the RfS.
- 41.3 The Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company will have to submit a single bid (single application) quoting a single “First Round Tariff” in

Indian Rupee per kWh for all the Projects applied for. **The tariff has to be quoted in Indian Rupee per kWh up to two places of decimal only.** If it is quoted with more than two digits after decimal, digits after the first two decimal places shall be ignored. (For e.g. if the quoted tariff is INR 2.337, then it shall be considered as INR 2.33).

- 41.4 In this step, evaluation will be carried out based on the tariff quoted by Bidders.
- 41.5 On completion of Techno-Commercial bid evaluation, if it is found that only one or two Bidder(s) is/are eligible for the next stage, opening of the financial bid of the Bidder(s) will be at the discretion of SECI. Thereafter, SECI will take appropriate action as deemed fit.
- 41.6 If the first-round tariff quoted is same for two or more Bidders, then all the Bidders with same tariff shall be considered of equal rank/ standing in the order.
- 41.7 All Bidders with same tariff shall be eligible for reverse auction round, provided their rank is equal to or less than n^{th} Bidder as mentioned in Clause 42.2 of the RfS.
- 41.8 Ranking of bidders after Financial Bid Evaluation: Following illustrates an example of ranking of bidders after financial bid opening and evaluation

Bidder	Submitted Financial Bid	Ranking
B1	₹ 2.10 (Tariff in ₹/ kWh)	L1
B2	₹ 2.20 (Tariff in ₹/ kWh)	L2
B3	₹ 2.30 (Tariff in ₹/ kWh)	L3
B4	₹ 2.30 (Tariff in ₹/ kWh)	L3
B5	₹ 2.43 (Tariff in ₹/ kWh)	L4
B6	₹ 2.60 (Tariff in ₹/ kWh)	L5
B7	₹ 2.65 (Tariff in ₹/ kWh)	L6

42 Reverse Auction (Step-3)

- 42.1 The reverse auction for the total tendered capacity shall be conducted on the portal <https://www.bharat-electronictender.com>, on the day as intimated by SECI to the eligible bidders. Rules of the auction process are brought out below, and are also contained in Annexure-A of the RfS. As part of submission of their response to RfS, the Bidders shall submit the scanned copy of Annexure-A of the RfS duly signed and stamped by the Authorized Signatory, as an acceptance of the provisions contained therein.
- 42.2 The total number of eligible bidders for the reverse auction shall be decided as mentioned below:

Assuming

T = Total Techno-Commercially Qualified Bidders, and

S_k = Cumulative capacity till the ' k^{th} ' serial number bidder (not the ' k^{th} ' rank bidder) after ranking is done in ascending order from L1 onwards

$S_E =$ (Eligible capacity for award)*	(i) In case $S_T \leq 600$ MW, $S_E = 0.8 \times S_T$ (ii) In case $S_T > 600$ MW, $S_E = 0.8 \times S_T$ subject to maximum eligible capacity being 600 MW.
---	---

*In case the eligible capacity for award comes out to be in decimals with more than two decimal places, then the decimal places after the two decimal places will not be considered and the eligible capacity will be considered only up to the two decimal places. For e.g., if $S_T = 450.52$ MW, then $0.8 \times S_T = 360.416$ MW. However, S_E will be considered only up to two decimal places, i.e., $S_E = 360.41$ MW.

Number of Bidders eligible for e-Reverse Auction

i. In case $(0.8 \times S_T) \leq 600$ MW: all the techno-commercially qualified bidders whose financial bids are in line with the RfS provisions, will be shortlisted for e-RA. Accordingly, the no. of bidders shortlisted for e-RA, i.e., “n” = “T”.

ii. In case $(0.8 \times S_T) > 600$ MW: The lowest ranked bidder, i.e. the bidder quoting the highest tariff (the “H1 bidder”) shall be eliminated at this stage, and the remaining techno-commercially qualified bidders whose financial bids are in line with the RfS provisions, will be shortlisted for e-RA. Accordingly, the no. of bidders shortlisted for e-RA, i.e., “n” = “T”-1

Note:

- In case more than one bidder is ranked as “H1” bidder, no elimination will take place at this stage.
- The above elimination will take place subject to the condition that 80% of the total bid capacity after such elimination remains more than the tendered capacity (600 MW in this case), and the minimum number of shortlisted bidders for e-RA after elimination at this stage remains 3. In the contradictory scenario, no elimination will take place at this stage.

For e.g. (Shortlisting of Bidders for reverse auction):

Scenario-1: Total bid capacity of techno-commercially shortlisted bidders = $S_T = 1950$ MW

S. No.	Techno commercially qualified Bidder	Rank	Capacity (MW)	T	S_E	$(0.8 \times S_T)$	n	Shortlisted Bidders
1	B8	L1	300	8	600 MW	1560 MW	7*	B8
2	B5	L2	200					B5
3	B1	L3	300					B1
4	B4	L3	250					B4
5	B2	L4	300					B2
6	B3	L5	100					B3
7	B7	L6	200					B7

8	B6	L7	300					
---	----	----	-----	--	--	--	--	--

* $n = 8 - 1 = 7$ as per the above formula.

Scenario-2: Total bid capacity of techno-commercially shortlisted bidders= $S_T=600$ MW

S. No.	Techno commercially qualified Bidder	Rank	Capacity (MW)	T	S_E	($0.8 \times S_T$)	n	Shortlisted Bidders
1	B3	L1	100	4	480 MW	480 MW	4	B3
2	B2	L2	150					B2
3	B1	L3	250					B1
4	B4	L4	100					B4

* $n = 4$ as per the above formula

- 42.3 At least one week prior to reverse auction, an advance intimation regarding the date and time of the reverse auction will be sent by e-mail to all the bidders whose technical bids have been opened and found to be qualified. However, from this advance intimation, it shall not be construed by the bidders that they have been shortlisted for Reverse Auction. Further, at least two hours before the scheduled start time of Reverse Auction, a system generated email for invitation for Reverse Auction will be sent to all those bidders only who have been shortlisted based on the criteria mentioned at Clause 42.2 above.
- 42.4 Shortlisted bidders for Reverse Auction will be able to login into the ISN-ETS portal of reverse auction 15 minutes before the start time of reverse auction.
- During the 15 minutes prior to start of reverse auction process, the respective tariff of the bidder shall be displayed on its window.
 - The minimum decrement value for tariff shall be INR 0.01 per kWh. The Bidder can mention its revised discounted tariff which has to be at least 01 (One) Paise less than its current tariff.
 - Bidders can only quote any value lower than their previous quoted tariff taking into consideration the minimum decrement value mentioned in the previous clause. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.
 - During reverse auction, the Bidder shall not have the option of changing the quoted total Project Capacity while quoting tariff during reverse auction.
 - In the bidder's bidding window, the following information can be viewed by the bidder:
 - Its tariff as the initial start price and there after last quoted tariff along with the quoted Project Capacity for which the Bidder is qualified.
 - The list of all the Bidders with their following details: Pseudo Identity, last quoted tariff and quoted Project Capacity.
 - The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 8 (eight) minutes from the scheduled/extended closing time. Such auto extension shall be affected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:
 - Green Zone: This zone consists of the Bidders who may be allocated their full

quoted Project Capacity, subject to provisions of Clause 43, if the auction is closed at that instant.

- ii. Orange Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Project Capacity, subject to provisions of Clause 43, if the auction is closed at that instant.
- iii. Red Zone: This zone consists of the Bidders who will not be awarded their quoted Project Capacity if the auction is closed at that instant.

If no such change as described above is affected during the last 8 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.

43 Selection of Successful Bidders

43.1 Subsequent to conclusion of the e-RA process, the bidders in the “Green” and “Orange” zones as per Clause 42.4 (vi) above, will be listed in the increasing order of the tariffs discovered at the end of e-RA.

43.2 The bidders who fall within the range of (and including) the lowest tariff (L1 tariff) + 2% of the L1 tariff-hereinafter referred to as “the range”- will be declared as Successful Bidders under the RfS, subject to the following conditions:

- a. In case the cumulative capacity shortlisted as per the range exceeds S_E (capacity eligible for award as per Clause 42.2), the list of Successful Bidders shall be limited by S_E .
- b. In a borderline case, i.e. the scenario wherein more than one bidder is eligible to be declared as Successful Bidder at the highest tariff (the tariff at the end of the range), and the cumulative capacity exceeds S_E , time stamping of bidders shall be used to limit allocation of cumulative capacity up to S_E . In such cases, those bidders who are at the same tariff, but they are ranked lower than the ones which fall within the cumulative capacity limit of S_E , will not be eligible to be declared as Successful Bidders.

In other words, in every possible scenario, the total capacity to be awarded under the RfS shall be limited to S_E .

- c. Time stamping- In case of a tie among two or more Bidders (i.e. their last quoted tariff being the same), they will be considered in the chronological order of their last quoted tariff during the e-RA with preference to be given to that Bidder who has quoted his last tariff during the e-RA, earlier than others.
- d. In the above case, if the time of quote also becomes exactly same among the Bidders in a tie, then the ranking among these Bidders shall be done as follows:
 - Step 1: Highest rank will be given to the Bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.
 - Step 2: Ranking will be done based on draw of lots.

43.3 **Illustration:** Following example provides a possible illustration of the above methodology:

- L1 tariff discovered after e-RA: Rs. 2.50/kWh
- The range (L1+2% of L1): Rs. 2.55/kWh

Rank	Quoted Capacity (MW)	Cumulative Capacity (MW)	Time stamp	Tariff (INR/kWh)	Qualified as Successful Bidder
L1	50	50	NA	2.50	L1
L2	150	200	NA	2.51	L2
L2	100	300	NA	2.51	L2
L3	50	350	NA	2.53	L3
L4	50	400	16:00:01	2.55	L4
L4	200	600	16:00:02	2.55	L5
L4	300	900	16:00:03	2.55	---
L5	200	1100	NA	2.56	---
L6	300	1400	NA	2.60	---

43.4 Note: The allocation of cumulative Project Capacity shall be closed at S_E . However, in no case, shall the capacity of a single Project selected under this RfS, be less than 50 MW. In case of the last Successful Bidder, if the balance Project Capacity is less than the total capacity mentioned by the Bidder but greater than 50 MW, then the Project with highest preference (as mentioned in the Covering Letter) shall be awarded to the Bidder, subject to the maximum cumulative capacity not exceeding S_E , being awarded under the RfS.

In case the partial capacity offered to the last Successful Bidder as per Cl. 43.2 above, is lower than 50% of the total quoted capacity by such Bidder, the Bidder shall have an option to refuse such offered partial capacity, and the BG against EMD submitted by such Bidder shall be returned along with those of the unsuccessful Bidders. Such refusal shall be intimated to SECI within 7 days of completion of e-RA and not later than 7 days of issuance of LoAs by SECI, failing which, the awarded capacity shall be deemed to be accepted by the said Bidder.

In case the partial capacity offered to the last Successful Bidder as per Cl. 43.2 above, is greater than or equal to 50% of the total quoted capacity by such Bidder, it shall be mandatory for the last Bidder to accept the partial capacity offered against its quoted capacity, subject to the total cumulative capacity awarded under the RfS not exceeding S_E . In case the last Successful Bidder refuses to accept such partial capacity offered by SECI, the Bank Guarantee(s)/ Payment on Order Instrument(s)/ Insurance Surety Bond(s) against EMD submitted by such Bidder shall be encashed by SECI.

44 Issuance of LoAs

44.1 At the end of selection process, Letters of Award (LoAs) will be issued to the Successful Bidders for each Project. The LoAs shall be issued for the Contracted Capacity quoted by the respective Successful Bidder, or the partial Contracted Capacity, as the case may be. In case of a Consortium being selected as the Successful Bidder, the LoA shall be

issued to the Lead Member of the Consortium.

- 44.2 In case SECI is unable to find buyers/off-takers for the tariffs as discovered after the bidding process, SECI reserves the right to annul the bid process without any financial implications to any of the parties concerned. SECI reserves the right to cancel any or all of the bids in view of higher tariff discovered after e-RA.
- 44.3 In all cases, SECI's decision regarding selection of Bidder through Reverse Auction or otherwise based on tariff or annulment of tender process shall be final and binding on all participating bidders.
- 44.4 In case of delay in signing of PPA by SECI beyond the date as on 12 months subsequent to issuance of LoAs, the LoA shall stand cancelled and the EMD submitted by such Bidder shall be returned by SECI.

45 *Capacity Allocation under 'Green shoe Option'*

The modalities for allocation of additional capacity up to 300 MW under 'Greenshoe Option' shall be as under:

- 45.1 Additional capacity through 'Greenshoe Option' shall be offered to the Successful Bidder(s) who are willing to execute PPA(s) with SECI at lowest tariff (L1 tariff) discovered after the e-RA.
- 45.2 The Successful Bidder(s) may opt for a capacity not less than 50 MW under the Greenshoe Option. However, the maximum capacity that will be awarded to a Successful Bidder under this RfS, including the capacity allocated under Greenshoe Option, shall be limited to 450 MW. For avoidance of doubt, it is hereby clarified that the capacity allocation under 'Greenshoe Option' shall only be for the Successful Bidders.
- 45.3 Successful Bidder(s) seeking additional capacity under the Greenshoe Option shall have to meet the eligibility criteria under the RfS for the additional capacity sought under the Greenshoe Option. In this regard, the corresponding Successful Bidder shall be required to submit requisite documents to demonstrate additional Net-worth and Liquidity criteria in line with Clause 38.1 and 38.2 of the RfS, for the additional capacity sought under Greenshoe Option. Further, the Successful Bidders shall be required to submit EMD pertaining to the additional capacity sought under Greenshoe Option, along with the confirmation for consideration of the Bidder for Greenshoe Option and the Project location as well as the Interconnection Point details for the Greenshoe Capacity. The deadline for meeting the aforementioned requirements and confirmation for executing the PPA with SECI at L1 tariff under the Greenshoe Option shall be the date as on 20 days from the date of issuance of LoA to the Successful Bidders.
- 45.4 Subsequent to receipt of confirmation from the Successful Bidders and the respective capacities sought by them, the capacity under Greenshoe Option shall be allocated in the increasing order of the tariffs discovered after the e-RA. In other words, if all the Successful Bidders accept the Greenshoe offer by SECI, the capacity will be first allocated to the L1 Bidder, followed by the L2 Bidder and so on. The same shall be continued till the total capacity eligible under Greenshoe Option gets exhausted or the capacities sought by the Successful Bidders has exhausted, whichever is lower.
- 45.5 The EMDs pertaining to unsuccessful capacity subsequent to the above process shall be

released by SECI within 30 days of the date of issuance of LoA(s) for the Greenshoe Capacity.

- 45.6 The Bidders who are awarded partial capacities under the Greenshoe Option are required to accept the partially awarded capacity if the same is greater than or equal to 50 MW. In the event of refusal to accept the same, the EMD pertaining to that partial capacity shall be encashed by SECI and the balance amount, if any, shall be released to the bidder.
- 45.7 The terms and conditions as well as obligations and rights of Successful Bidder(s) as well as SECI for additional capacity allocated under the 'Greenshoe Option' shall be identical to the same for the tendered capacity of 600 MW under the RfS.
- 45.8 In all the cases, SECI's decision regarding allotment/non-allotment of additional capacity under 'Greenshoe Option', as per Clause 4 of the RfS, shall be final and binding on the Bidders.

Registration

To use the ElectronicTender® portal <https://www.bharat-electronictender.com>, vendors need to register on the portal. Registration of each organization is to be done by one of its senior persons who will be the main person coordinating for the e-tendering activities. In ETS terminology, this person will be referred to as the Super User (SU) of that organization. For further details, please visit the website/ portal, and click on the ‘Supplier Organization’ link under ‘Registration’ (on the Home Page), and follow further instructions as given on the site. Pay Annual Registration Fee as applicable.

After successful submission of Registration details and payment of Annual Registration Fee, please contact ISN-ETS Helpdesk (as given below), to get your registration accepted/ activated.

Important Note:

- Interested bidders have to download official copy of the RfS & other documents after login into the e-tendering Portal of ISN-ETS <https://www.bharat-electronictender.com>. If the official copy of the documents is not downloaded from e-tendering Portal of ISN-ETS within the specified period of downloading of RfS and other documents, bidder will not be able to participate in the tender.
- To minimize teething problems during the use of ETS (including the Registration process), it is recommended that the user should peruse the instructions given under ‘ETS User-Guidance Centre’ located on ETS Home Page, including instructions for timely registration on ETS. The instructions relating to ‘Essential Computer Security Settings for Use of ETS’ and ‘Important Functionality Checks’ should be especially taken into cognizance.

Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of users, assigning roles to them, etc.

Some Bidding Related Information for this Tender (Sealed Bid)

The entire bid-submission would be online on ETS (unless specified for Offline Submissions). Broad outline of submissions are as follows:

- Submission of Bid-Parts
 - Envelope I (Techno-commercial-Bid)
 - Envelope II (Financial-Bid)
- *Submission of digitally signed copy of Tender Documents/ Addendum*

In addition to the above, the bidders are required to submit certain documents physically offline also as per Clause 28 of the RfS, failing which the technical bids will not be opened.

Note: The Bidder should also upload the scanned copies of all the above mentioned original documents as Bid-Annexures during Online Bid-Submission.

Internet Connectivity

If bidders are unable to access ISN-ETS's e-tender portal or Bid Documents, the bidders may please check whether they are using proxy to connect to internet or their PC is behind any firewall and may contact their system administrator to enable connectivity. Please note that Port SSL/ 443 should be enabled on proxy/firewall for HTTPS connectivity. Dial-up/ Broad and internet connectivity without Proxy settings is another option

SPECIAL NOTE ON SECURITY AND TRANSPARENCY OF BIDS

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically, for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypted® functionality, the contents of both the 'ElectronicForms®' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

CAUTION: All bidders must fill ElectronicForms® for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the ElectronicForms® and the corresponding Main-Bid. For transparency, the information submitted by a bidder in the ElectronicForms® is made available to other bidders during the Online Public TOE. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the ElectronicForms®, the TOE officer may make available for downloading the corresponding

Main-Bid of that bidder at the risk of the bidder. **If variation is noted between the information contained in the ElectronicForms® and the ‘Main-Bid’, the contents of the ElectronicForms® shall prevail.**

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.

The bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted into the ‘Time Locked Electronic Key Box (EKB)’ after the deadline of Bid Submission, and before the commencement of the Online TOE of Technical Bid. The process of submission of this Pass-Phrase in the ‘Time Locked Electronic Key Box’ is done in a secure manner by first encrypting this Pass-Phrase with the designated keys provided by SECI.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to SECI in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-Tendering Server/ Portal.

OTHER INSTRUCTIONS

For further instructions, the vendor should visit the home-page of the portal <https://www.bharat-electronictender.com>, and go to the **User-Guidance Center**

The help information provided through ‘ETS User-Guidance Center’ is available in three categories – Users intending to Register/ First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

Important Note: It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

SEVEN CRITICAL DOs AND DON'Ts FOR BIDDERS

Specifically, for Supplier organizations, the following '**SEVEN KEY INSTRUCTIONS for BIDDERS**' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class III well in advance of your tender submission deadline on ETS.
2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz ‘Date and Time of Closure of Procurement of Tender Documents’ and ‘Last Date and Time of Receipt of Bids’. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is

mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization

3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS.
4. For responding to any particular tender, the tender (i.e. its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.
5. Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, etc.)

Note: Bid-submission in ETS can consist of submission of multiple bid-components, which vary depending upon the situation and requirements of the Buyer. Successful receipt of a bid in an e-tendering scenario takes place if all the required bid-components are successfully 'received and validated' in the system (ETS) within the scheduled date and time of closure of bidding. ETS/ Service Provider is not responsible for what happens at an end-user's end, or while a submission made by an end-user is in transit, until the submission is successfully 'received and validated' in ETS.

6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. The bidders are required to submit correct, valid and operative Pass-Phrase to decrypt either Technical Bid Part or Financial Bid Part in a separate sealed envelope before due date and time of submission of bid. In the event, the bids are not opened with the pass-phrase submitted by bidder, SECI may ask for re-submission/ clarification for correct pass-phrase. In the event of a bidder forgetting the Pass-Phrase before the expiry of deadline for Bid-Submission, facility is provided to the bidder to 'Annul Previous Submission' from the Bid-Submission Overview page and start afresh with new Pass-Phrase(s). If bidder fails to submit correct pass-phrase immediately as requested by SECI, the Bid Processing Fee and Cost of RfS Document, if applicable, shall be forfeited and bid shall not be opened, and EMD shall be refunded. No request on this account shall be entertained by SECI.
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' the status pertaining Overall Bid-Submission is 'COMPLETE'. For the purpose of record, the bidder can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the status pertaining overall Bid-Submission' is 'COMPLETE'

NOTE:

While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.

ADDITIONAL DOs AND DON'Ts FOR BIDDERS PARTICIPATING IN e-REVERSE AUCTION

1. Get your organization's concerned executives trained for e-Reverse Auction related processes on ETS well in advance of the start of e-Reverse Auction.
2. For responding to any particular e-Reverse Auction, the e-Reverse Auction (i.e. its Reverse Auction Search Code or RASC) has to be assigned to an MA.
3. It is important for each bidder to thoroughly read the 'rules and related criterion' for the e-Reverse Auction as defined by the Buyer organization.
4. It is important to digitally-sign your 'Final bid' after the end of e-Reverse Auction bidding event.
5. During an e-auction, it is recommended that a bidder submits a bid well before the scheduled time of 'Date and Time of Closure of Reverse-Auction'. Submission of a bid near the closing time of an auction may result in failure due to any of the various factors at that instant, such as – slow internet speed at the bidder's end, slow running of computer at bidder's end, nervousness of the bidder in the last few seconds, etc. This could lead to delay in submission of data from the bidder's computer to the server. Even if the delay is of a fraction of second after the scheduled closing time, it will result in failure of bid submission. Further, please note that a bid can be submitted even if the bidding-page has not been refreshed manually, or otherwise depending on the conditions of the e-auction.

Note: Successful receipt of Bid in an e-auction scenario takes place if the bid is successfully 'received and validated' in the system (ETS) within the scheduled date and time of closure of bidding. ETS/ Service Provider is not responsible for what happens at an end-user's end, or while a submission made by an end-user is in transit, until the submission is successfully 'received and validated' in ETS.
